**Commenting on Nava Bharat's first quarter results, Mr. D. Ashok, Chairman said:**

*"The operating performance of the company is reflective of the contribution from both power and ferro alloy businesses as opposed to the dependency on power business earlier. The Company can look forward to healthy contribution from power business based on the improvement in merchant power realisations and expected spurt in volumes following addition to the power generating capacity in the next few months".*

**Mr P. Trivikrama Prasad, Managing Director added:** "The recent hikes in power tariffs by State Utilities helped in stabilising the merchant power realisations though concerns remain on the fuel cost and its availability going forward. The Company plans to leverage its locational advantages to obtain a blend of coal through linkages, E Auction and washery rejects to sustain reasonable margins in this business. The performance of ferro alloy and sugar business will supplement the growth in top line and profitability in the current year."
