

NAVA BHARAT VENTURES LIMITED

Nava Bharat Chambers 6-3-1109/1, Raj Bhavan Road, Hyderabad - 500082

FY14 Consolidated Total Income at Rs. 17,276 Million, up 51% YoY
FY14 Consolidated Profit after Tax at Rs. 2,799 Million, up 47% YoY

Board recommends 250% dividend for FY14

- Consolidated FY14 EBITDA margin stays healthy at 26.5%
- Strategy to augment domestic power capacity delivers better performance on consolidated basis
- Zambia project achieving internal milestones; 60 % construction completed for power plant. Financial closure for debt finance expected in H1 FY15

Hyderabad, Friday, May 30, 2014: Nava Bharat Ventures Ltd (NBVL) announced its audited results for the year ended 31st March 2014.

Consolidated financial review (FY14): Profit After Tax stood at Rs. 2,799.1 million from Rs. 1903.7 million, up 47% YoY. The power business showed robust growth on the back of sharp improvement in volumes following the contribution of Nava Bharat Energy's 150 MW plant; notwithstanding the forced outages in the standalone A.P. operations in H1 and low key performance of Sugar division. The operations of the Odisha Ferro Alloy and Power units were however subdued on account of regulated plant loads and charge of depreciation for the new 64 MW Unit. The Manganese alloy realisations in AP were range bound and turned out reasonable performance. With a marginally improved coal operations in Zambia, the international operations showed distinct improvement compared to previous year.

Going forward, visibility exists in volumes and earnings for power for FY15 as contracts for merchant operations (standalone and subsidiary) in A.P. have been entered into. The power operations in AP are aided by adequate availability of imported coal, to be blended with local coal to ensure continued fuel availability through the year ahead. The Odisha operations remain subject to dynamics of the regional merchant market and the outcome of the mining license of Tata Steel for conversion of Ferro Chrome pending which the Company will produce on its own account, albeit to recover the fixed costs.

Dividend

The Board of Directors have considered and declared a dividend of 250% on the equity share capital, i.e. Rs. 5 per share resulting in an outgo of Rs. 493.2 million including dividend distribution tax.

Corporate Developments

Zambia Coal & 300 MW Power Project

The Zambian Subsidiary hopes to ramp up the sale volume of high grade coal to about 400,000 MT in the current year and improve upon the operational profit level obtained last year. The 300 MW power Project is expected to achieve Financial Closure for the debt finance of US\$ 560 Million during H1 of FY 15. The Project has attained an overall progress of 60% and the construction work will gain further momentum after the Financial Closure and the Project is expected to be commissioned in H1 FY16.

Overseas Agri and Hydel power projects

These projects are in development stage and will obtain traction after allocation of land In Tanzania and after obtaining Government approval for Concession Agreement for the Hydel Power project in Laos.

Q4 & FY2014 quantitative data table

	Q4 FY2014	Q4 FY2013	FY2014	FY2013
